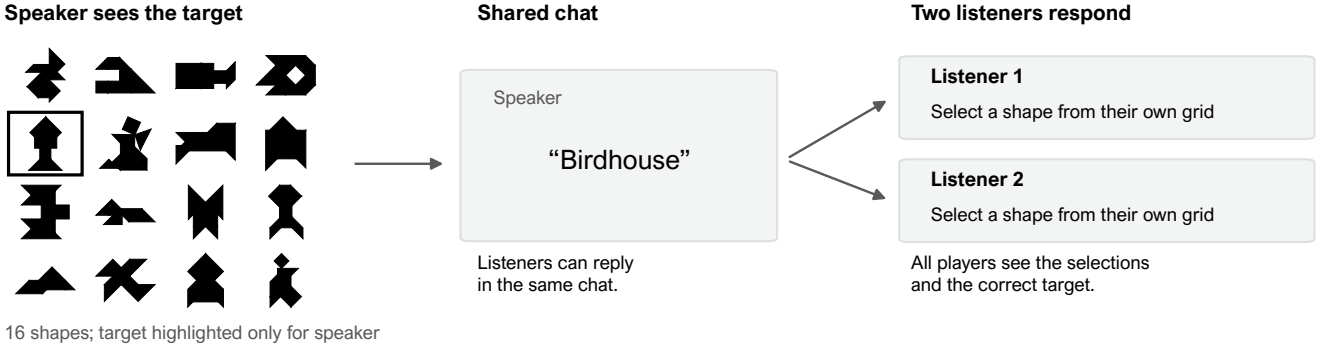
a One conversation: describe, select, and receive feedback

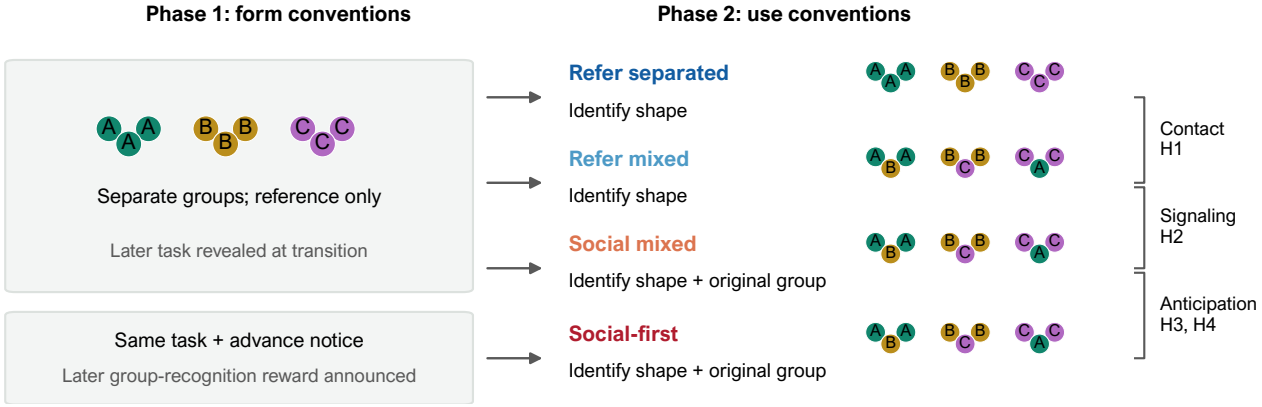


6 targets per block · Speaker rotates each block · 6 blocks per phase

b Phase 1: different groups develop different descriptions

Same target as in a. Verbatim descriptions from three groups at the end of Phase 1 in one illustrative game.

c Compare what happens when established groups meet



Mixed trials: identities masked; one in-group and one out-group listener per speaker when all nine players remain.
A, B, C denote original groups. Social task: “Was the speaker in your original group?” (Yes / No).
